Auditors' Report to the shareholders of Power Grid Company of Bangladesh Ltd.

We have audited the accompanying financial statements of Power Grid Company of Bangladesh Ltd. (PGCBL) which comprise the Statement of Financial Position as at 30 June 2013 and statement of Comprehensive Income, statement of changes in equity and statement of cash flows for the year then ended and a summary of significant accounting policies and other explanatory information. The financial statements of Power Grid Company of Bangladesh Ltd. (PGCBL) for the year ended 30 June 2012 were audited by ACNABIN Chartered Accountants who expressed a qualified opinion on 08 November 2012.

Management's Responsibility for the Financial Statements

Management of PGCBL is responsible for the preparation and fair representation of these financial statements in accordance with Bangladesh Financial Reporting Standards, the Companies Act 1994 and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain evidence about the amount and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

1. The carrying amount of property, plant and equipment as reported in the Balance Sheet is Tk. 42,116,295,135. Proper register for property, plant and equipment is not maintained by the company. Valuation of plant and machinery transferred from Bangladesh Power Development Board (BPDB) and Dhaka Power Distribution Company (DPDC, previously DESA) was not done properly. No physical verification of its property, plant and equipment as at 30 June 2013 or any time during the period under audit was done. We had no other practical alternative auditing procedure that we could apply to authenticate the physical existence as well as the value thereof as on 30 June 2013. Bangladesh Accounting Standard (BAS) 36 requires impairment test of property, plant and equipment and necessary disclosure in this regard. The Company has no laid down policy and procedure in regard to impairment test, and no such test was carried out. However, the company has hired the services of a firm of Chartered Accountants for the valuation in September 2011 which is still in progress.

And as disclosed in Note # 5 to the financial statements, the Company has reported an amount of Tk. 48,513,303,442 as Capital work-in-progress which includes five completed projects amounting Tk. 847,632,179. The projects have been completed and are already in operation and generating revenue but have not been transferred to Property, Plant and Equipment; as a result the company has understated depreciation expenses by Tk. 14,833,563 in relation to the projects. For which EPS for the year 2012-13 has been overstated.

- 2. As disclosed in Note # 6 to the financial statements, the Company has reported an amount of Tk. 1,658,585,163 as inventories. Movement of inventories is not properly recorded in the accounts maintained at the cost centers we visited. As a result, physical existence of inventory could not be verified. We had no other practical alternative auditing procedure that we could apply to authenticate the physical existence as well as the value thereof as on 30 June 2013. However, the company has hired the services of a firm of Chartered Accountants for the valuation in September 2011 which is still in progress.
- 3. Exchange rate fluctuation gain amounting to Tk. 645,808,508 relating to the outstanding principal amount of loan for the year ended 30 June 2013 of the completed projects that are now in operation has been deducted from Property, plant and equipment instead of recognizing such gain in Profit and Loss Account. Para-28 of Bangladesh Accounting Standard (BAS-21) requires that the said exchange rate fluctuation gain shall be recognized in Profit and Loss account. The company has been following the policy of capitalizing or deducting such exchange rate fluctuation loss /gain from Property, plant and equipment from the year 2010-2011 which is a non-compliance of the above provision of BAS-21.

- 4. As disclosed in Note # 7 to the financial statements, the Company has reported an amount of Tk. 1,278,732,152 as receivable from transmission/wheeling and optical fiber charge. It includes receivables from DPDC, DESCO and WZPDCL Tk. 296,231,062, 173,596,648 and Tk. 88,402,498 respectively. Receivable from DPDC includes Tk. 136,848,400 being carried forward from June 2008 due to fewer amounts received against wheeling charge bills over the years. Receivable from DESA Tk. 15,700,698 due to fewer amounts received against wheeling charge bills from DPDC subsequent to June 2008. Receivable from DESCO includes Tk. 3,106,230 being carried forward from 2007. And receivable from WZPDCL includes Tk. 968,010 being carried forward from the year 2007. Repair and maintenance charge receivable from DESA is Tk. 104,722,014 which is being carried forward from 2010. Ernst & Young India has produced a report in reference to the repair and maintenance charge receivable from DESA but the company is yet to provide provisions for the disputed amounts according to the report. As for the other disputed amounts, in our opinion the company is very unlikely to receive the amounts in full. If provisions were provided for the abovementioned amounts the EPS for the year 2012-13 would have adversely been affected.
- 5. As disclosed in Note# 19 to the financial statements, liabilities for other finance include an amount of Tk. 3,765,000 owed to BPDB, and as disclosed in Note # 19.4, liabilities for other finance include account current with corporations and other offices amounting to Tk. 104,032,421 comprising Tk. 106,454,988 and Tk (2,422,567) on account of BPDB and Project-1 respectively as on 30 June 2013. As disclosed in Note # 12.3, Note # 12.4(A) and Note # 16 PGCBL owes to BPDB Tk. 8,003,670, Tk. 9,855,673,033 and Tk. 881,647,500 respectively. The balances could not be confirmed from BPDB.
- 6. As disclosed in Note # 14 to the financial statements, the gratuity scheme operated by the company is unfunded and provision is provided as per Company policy. But no actuarial valuation has been done as per BAS 19.

Qualified Opinion

In our opinion, except for the effects of the matters described in the Basis for Qualified Opinion paragraph, financial statements give a true and fair view of the financial position of Power Grid Company of Bangladesh Ltd. as at 30 June 2013, and of its financial performance and its cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards and comply with the Companies Act 1994 and other applicable laws and regulations.

Report on Other Legal and Regulatory Requirements

We also report that:

- i) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- ii) in our opinion, proper books of account as required by law have been kept by the Fund so far as it appeared from our examination of those books;
- iii) the statement of financial position and statement of comprehensive income of the Company dealt with by the report are in agreement with the books of account;
- iv) the expenditure incurred was for the purposes of the Company's business.

Managing Director

Power Grid Company of Bangladesh Ltd. Notes to the Financial Statements for the year ended 30 June 2013

1. Reporting entity

1.1 Company profile

Power Grid Company of Bangladesh Limited (the Company) is a listed Company. The Company was incorporated on 21 November 1996 having registration no. C-31820 (941)/96 under the Companies Act 1994 as a private Company limited by share which was subsequently converted to a public limited Company on 5 March 2000. The Company is listed with both Dhaka Stock Exchange (DSE) and Chittagong Stock Exchange (CSE).

1.2 Nature and scope of business

The Company's principal activities are planning, promoting, developing, operating and maintaining of an integrated and efficient power transmission system/network through out Bangladesh. As the sole power transmission Company in Bangladesh, the Company is responsible in all aspects, regarding transmission lines, sub-stations, load dispatch Centres, communication facilities etc. The scope of work of the Company also includes co-ordination of integrated operations of regional, national and international grid systems. It also provides consultancy services in power systems and execution turnkey jobs for other organisations.

1.3 Registered office

The registered office of the Company is located at Red Crescent Concord Tower, 17 Mohakhali C/A, 6th Floor, Dhaka 1212.

1.4 Corporate head office

Corporate head office of the Company is located at Institute of Engineers Bangladesh (IEB) Bhaban (New), 3rd and 4th floors, Ramna, Dhaka-1000.

2. Basis of preparation

2.1 Statement of compliance

Except as details below, the financial statements have been prepared in accordance with Bangladesh Accounting Standards (BAS) and Bangladesh Financial Reporting Standards (BFRS), the Companies Act 1994 and other applicable laws and regulations.

Foreign currency exchange difference of Tk 2,317,749,491.00 arising on foreign currency denominated loans and borrowings taken by the Company has been dedudcted from the carrying amount of capital work-in-progress and property, plant and equipment as required under the provision of Section 185, read with, Part-1, Schedule XI of the Companies Act 1994 because the loans were used in the projects that were accounted for in capital work in progress. The difference arising from capitalisation of foreign exchange loss/(gain) has been recognised in accordance with the requirements of the Companies Act 1994.

2.1.1 Other regulatory compliances

The Company is also required to comply with the following major laws and regulation in addition to the Companies Act 1994:

The Securities & Exchange Rules, 1987
The Securities & Exchange Ordinance, 1969
The Income Tax Ordinance, 1984
The Income Tax Rules, 1984
The Value Added Tax Act, 1991
The Value Added Tax Rules, 1991
The Customs Act, 1969

2.2 Presentation of Financial Statements

The presentation of these financial statements are in accordance with the guidelines provided by BAS 1: Presentation of financial statements.

2.3 Basis of Measurement

These financial statements have been measured under historical cost convention.

2.4 Functional and presentation currency

These financial statements are presented in Bangladesh Taka (BDT/Taka/Tk) which is both functional and presentational currency.

2.5 Level of precision

The figures of financial statements presented in Taka which have been rounded off to the nearest integer.

2.6 Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. The estimates and the associated assumptions are based on historical experience and various other factors that believed to be reasonable under the circumstances, the result of which form the basis of making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

To be precise, information about significant areas of estimation uncertainty and critical Judgment in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

	Note Ref.
Depreclation and amortisation	4
Deferred liability for gratuity and earned leave	15
Deferred tax liabilities	16
Foreign currency denominated loans and borrowings	13-14 and 17-18

2.7 Going concern

The Company has adequate resources to continue in operation for the foreseeable future. For this reason the directors continue to adopt going concern basis in preparing the financial statements. The current resources of the Company provide sufficient fund to meet the present requirements of the existing business.

2.8 Applicable accounting standards

The following BASs are applicable for the financial statements for the year under review:

BAS - 1 Presentation of Financial Statements

BAS - 2 Inventories

BAS - 7 Statements of Cash Flows

BAS - 8 Accounting Policies, Changes in Accounting Estimates and Errors

BAS - 10 Events after the Reporting Period

BAS - 12 Income Taxes

BAS - 16 Property, Plant and Equipment

BAS - 18 Revenue

BAS - 19 Employee Benefits

BAS - 21 The Effects of Changes in Foreign Exchange Rates

BAS - 23 Borrowing Costs

BAS - 24 Related Party Disclosures

BAS - 32 Financial Instruments: Presentation

BAS - 33 Earnings Per Share

BAS - 34 Interim Financial Reporting, Comparative information

BAS - 36 Impairment of Assets

BAS - 37 Provisions, Contingent Liabilities and Contingent Assets

BAS - 39 Financial Instruments: Recognition and Measurement

BFRS -7 Financial Instruments Disclosure

BFRS -13 Fair Value Measurement

2.9 Reporting period

The financial statements of the Company covers one year from 1 July 2012 to 30 June 2013 and followed consistently.

3. Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

3.1 Foreign currency transactions

Bangladesh Accounting Standards 21: The Effect of changes in Foreign Exchange Rates requires balances resulting from transactions denominated in a foreign currency to be converted into Taka at the rate prevailing on the date of transaction. All monetary assets and liabilities at balance sheet date, denominated in foreign currencies, are to be retranslated at the exchange rates prevailing on balance sheet date. While recognising foreign exchange gain/loss the company is following Companies Act 1994. Details are given in notes # 2.1.

3.2 Property, plant and equipment

3.2.1 Recognition and measurement

Items of property, plant and equipment excluding land are measured at cost less accumulated depreciation in compliance with the requirement of BAS 16: Property, Plant and Equipment. The cost of an item of property, plant and equipment comprises its purchase price, import duties and non refundable taxes, after deducting trade discount and rebates and any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the intended manner. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

3.2.2 Subsequent costs

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit and loss account as incurred.

3.2.3 Depreciation

No depreciation is charged on land and capital work in progress

Depreciation on other items of property, plant and equipment is provided on a straight line basis over the estimated useful lives of each item. For addition to property, plant and equipment, depreciation is charged from the month of capitalisation up to the month immediately preceding the month of disposal. However, the depreciation for the current year as well as last year has been charged for 6 (six) months on the addition of fixed assets due to lack of some relevant information. The amount is not material

Considering the estimated useful life of the assets, the rates of depreciation stand as follows:

Building	5%
Plant and machinery (substations and transmission lines)	3.50%
Motor vehicle	20%
Office equipment	10%
Signboard	25%
Furniture and fixture	10%

3.2.4 Capital work-in-progress

Capital work in progress consists of all costs related to projects including civil construction, land development, consultancy, interest, exchange loss/(gain), line in progress, import duties and non refundable taxes and VAT. Property, plant and equipment that is being under construction/ acquisition is also accounted for as capital work-in-progress until construction/acquisition is completed and measured at cost. And the cost do not include the retention money kept by the donors by the instruction of PGCBL.

3.2.5 Retirement and disposal

An item of property, plant and equipment is derecognised on disposal or when no further economic benefits are expected from its use, whichever comes earlier. Gains or losses arising from the retirement or disposal of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of the same, and are recognised the net with 'other income' in the profit and loss account.

3.3 Inventories

Inventories consisting of spare parts at Grid Maintenance Divisions (GMDs) are valued at lower of cost and net realisable value in accordance with provision of BAS 2: Inventories. Cost of inventories include expenditure incurred in acquiring the inventories and other cost incurred in bringing them to their existing location and condition.

Cost of Inventories is determined by using the weighted average cost formula. Net realisable value is based on estimated selling price less estimated costs necessary to make the sale.

3.4 Financial instrument

Non derivative financial instruments comprises of cash and cash equivalents, accounts and other receivables, loans and borrowings and other payable.

3.4.1 Cash and cash equivalents

Cash and cash equivalents comprise of cash on hand and cash at bank including fixed deposits having maturity of three months to one year which are available for use by Company without any restriction.

3.4.2 Accounts and other receivable

Accounts and other receivable are initially recognised at cost which is the fair value of the consideration given in return. After initial recognition these are carried at cost less impairment losses due to uncollectibility of any amount so recognised.

3.5 Share capital

Paid up capital represents total amount contributed by the shareholders and bonus shares issued by the company to the ordinary shareholders. Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to vote at shareholders' meetings. In the event of a winding up of the company, ordinary shareholders rank after all other shareholders and creditors are fully entitled to any residual proceeds of liquidation.

3.6 Provisions

A provision is recognised in the balance sheet when the Company has a legal or constructive obligation as a result of past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of an amount of the obligation. Provision is ordinarily measured at the best estimate of the expenditure required to settled the present obligation at the balance sheet date.

3.7 Income tax

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity in accordance with the requirement of BAS 12: Income Tax.

3.7.1 Current tax

Current tax the expected tax payable on the taxable income for the year, using tax rate enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The effective rate of tax is 24.75% considering 10% tax rebate for declaring dividend of more than 20% of the paid up capital. Provision for tax has been made on the basis of Finance Act 2012. Last year's tax liability has been set off against advance tax.

3.7.2 Deferred tax

Deferred tax is recognised using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they are reversed, based on income tax the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

3.8 Revenue recognition

Revenue comprises transmission/wheeling charge and rental income which are recognised in the profit and loss account after meeting the recognition criteria in accordance with the requirement of BAS 18: Revenue. Revenues are measured at fair value of the consideration received or receivable, net off sale related taxes (VAT).

Transmission charge is recognised when monthly invoices are raised against Bangladesh Power Development Board (BPDB), Dhaka Power Distribution Company (DPDC), Palli Bidyut Samitis (PBSs), West Zone Power Distribution Co. Ltd (WZPDC) and Dhaka Electric Supply Company Ltd. (DESCO). Amount of invoices is determined by survey of meter reading at cut off time.

Rental income from Optical Fiber Cable Network is recognised when monthly invoices are raised against Grameen Phone Ltd, Bangladesh Telecommunication Company Limited (BTCL) and Robi Axiata Ltd. Quantum of Invoices is determined in accordance with the agreement.

3.9 Basis for allocation of Transmission expense and Adminstrative expense:

particulars	Transmission	Admin.	Total
Salary and other employee benefits	89	11	100
Travelling and conveyance	96.2	3.8	100
Functions, games and entertainment	8.67	91.33	100
Rent, rates and taxes	44.9	55.1	100
Postage, telephone and fax	67.66	32.34	100
Recruitment and training	47.4	52.6	100
CPF contribution	92.11	7.89	100
Gratuity	83	17	100
Electricity and power	98.34	1.66	100
Office Expenses	35.5 2	64.48	100
Fuel and lubricant	76.13	23.87	100
Security expense	98.66	1.34	100
Insurance	21.63	78.37	100
Bank charges and commission	98	2	100
Consultancy	17.88	82.12	100
Repair and maintenance	96.87	3.13	100
C & F, carrying and handling	96.01	3.99	100
Miscellaneous expenses	81.55	18.45	100
Depreclation (Note: 4)	99.62	0.38	100

Note: Based on the above ratio the cost is allocated between transmission and administrative expense. No particular policy is followed for the allocation of cost.

3.10 Finance income and expense

Finance income comprises interest income on funds invested. Interest income is recognised on accrual basis.

Finance expense comprises interest expense on loans and foreign exchange loss/(gain) on translation of foreign currency. All finance expenses are recognised in the profit and loss account.

3.11 Earnings per share

The Company presents basic earnings per share (EPS) data for its ordinary shares.

Basic EPS is calculated by dividing the net profit for the year attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the year and splitted ordinary shares in accordance with the requirement of BAS 33: EPS.

3.12 Events after the balance sheet date

Events after the balance sheet date that provide additional information about the Company's position at the balance sheet date are reflected in the financial statements. Events after the balance sheet date that are not adjusting events are disclosed in the notes when material.

3.13 Statement of cash flows

The statement of cash flows has been prepared in accordance with requirements of BAS 7: Statement of Cash Flows. The cash generated from operating activities has been prepared using the direct method as prescribed by Securities and Exchange Rules 1987 and as the benchmark treatment of IAS 7, whereby major classes of gross cash receipts and gross cash payments from operating activities are disclosed.

3.14 Borrowing cost

Borrowing cost relating to projects already in commercial operations are charged as expenses for the year in accordance with requirements of BAS 23: Borrowing Costs. In respect of projects that have not yet commenced commercial operation, borrowing costs are adjusted with capital work-in-progress.

3.15 Employee benefits

The Company maintains both defined contribution plan and defined benefit plan for its eligible permanent employees in accordance with the requirements of BAS 19: Employees Benefits. The eligibility is determined according to the terms and conditions set forth in the respective deeds.

3.15.1 Defined contribution plan (provident fund)

Defined contribution plan is a post-employment benefit plan. The recognised Employees' Provident Fund is considered as defined contribution plan as it meets the recognition criteria specified for this purpose. All permanent employees contribute 10% of their basic salary to the provident fund and the Company also makes equal contribution

The Company recognises contribution to defined contribution plan as an expense when an employee has rendered services in exchange for such contribution. The legal and constructive obligation is limited to the amount it agrees to contribute to the fund.

3.15.2 Defined benefit plan (gratuity)

The Company also maintains an unfunded gratuity scheme for permanent employees, provision for which has been made in profit and loss account. Employees are entitled to gratuity benefits after completion of minimum 3 years service in the Company but provision has been made for persons who have not completed 3 years. The gratuity is calculated on the last basic salary and

3.15.3 Group insurance

The Company has also a group insurance scheme for its permanent employees, premium for which is being charged to profit and loss account annually as per the insurance policy.

3.16 Workers Profit Participation Fund (WPPF)

The Company makes a regular allocation of 5% on net profit before tax to this fund and payment is made to the eligible workers as per provision of the Company's profit under Labour Law 2006 Chapter-15.

3.17 Proposed dividend

The amount of proposed dividend has not been accounted for but disclosed in the notes to the accounts along with dividend per share in accordance with the requirements of the para 125 of IAS 1: Presentation of Financial Statements. Also, the proposed dividend has not been considered as "liability" in accordance with the requirements of the Para 12 & 13 of IAS 10: Events After The Reporting Period, because no obligation exists at the time of approval of accounts and recommendation of dividend by the Board of Directors.

3.18 Comparative information

Relevant comparative information has been presented in the financial statements. Previous year's figures have been rearranged/reclassified and restated wherever possible and considered necessary to conform to current year's presentation.

The above loan was received from Bangladesh Power Development Board for purchase of capital assets such as cars, computers, etc. This is payable within 20 years with 5 years grace period.

8,003,670

8,003,670

13.4 Assigned loan

The break-up of the above loan is as follows:

13.3 Bangladesh Power Development Board (IDA Cr.2016 BD)

A. Assigned loan from BPDB

Balance as at 1 July	9,481,643,070	10,620,095,349
Add: Current portion of the debt	137.1	
Add: Exchange rate fluctuation loss/(gain)	12,651,851	14,729,954
Addition/adjustment during the year	361,378,112	(1,153,182,233)
	9,855,673,033	9,481,643,070
Balance as at 30 June (A)	9,855,673,033	9,481,643,070
B. Assigned loan from DESA Balance as at 1 July Addition/adjustment during the year	3,844,677,100	3,844,677,100
	3,844,677,100	3,844,677,100
Balance as at 30 June (B)	3,844,677,100	3,844,677,100
Balance as at 30 June Grand total (A+B)	13,700,350,133	13,326,320,170

Above loans have been taken over from BPDB and DESA along with the fixed assets at written down value in different phases, the break-up of which is given below:

1. Assigned loan from BPDB:

1st Phase—Comilla (North) and Haripur 230 KV Sub-station and Haripaur-Ghorashal 230 KV 45 KM. Transmission Line.

2nd Phase–Hasnabad and Tongi 230/132 KV. Sub-station and Hasnabad-Haripaur 230 KV 16.5 KM Transmission Line.

30.06.2013	30.06.2012
Taka	Taka

3rd Phase — Grid Maintenance Division viz Dhaka (North) Dhaka (South), Dhaka (East), Aricha, Comilla and Mymensingh Telecommunication Division, Siddhirgonj, System Protection and Metering Division, Dhaka Grid Circle office, Dhaka.

4th Phase - 230 KV and 132 KV Transmission Line, Sub-station of Chittagong and Sylhet Division.

5th Phase – 230 KV, 132 KV, and 66 KV Transmission Line and Grld Sub-station of western part of the Country.

6th Phase - 230 KV and 132 KV Transmission Line and Grid Sub-station of western part of the Country.

2. Assigned loan from DESA:

1st Phase - Bhulta, Joydevpur and Manikgonj 132/33 KV. Sub-station & related Transmission Line.

2nd Phase - Kallyanpur and Mirpur 132/33 KV. Sub-station & related Transmission Line.

During the year, the company provided for interest @4% p.a. on all the assigned loans. It is noted that the subsidiary loan agreements of the above Loans with the Government are still with BPDB and DESA. So, the repayments are made through BPDB and DESA.

20.4.1 Cash defalcation

The Ishwardi - Bagabari - Sirajgonj - Bogra 230 Kv Transmission Line Project was completed on 30.06. 2010. As a result a Project Completion Report (PCR) is to be prepared and total expenditure booked so far in work- in- progress and current years Account Current balance has to be transferred to Fixed Assets. Two investigation committee was formed, one by the management and another by the Board of Directors. The management committee submitted the report and ascertained the defalcation amount of Tk. 637,536,768. Provision was made for cash defalcation for the said amount in 2010-11.

Dhaka Power Distribution				
Company(DPDC-Ex DESA)		Transmission Charge	1,473,580,387	296,231,062
Dhaka Electric Supply				
Company(DESCO)		Transmission Charge	991,823,318	173,596,648

Transactions with related companies are priced on arm's length basis and are in the ordinary course of business.

31. Number of employees

The number of employees as at 30 June 2013 is 2113 and which was 1952 as at 30 June 2012. All the employees are paid over Tk. 4,000.

32. Events after balance sheet date

The board of directors in its meeting held on 10 November 2013 recommended cash dividend @15% per share for the year 2012-13 which is subject to the approval at the forthcoming AGM.

33. Financial risk management

Bangladesh Financial Reporting Standard BFRS 7 - Financial Instruments: Disclosures - requires disclosure of information relating to: both recognised and unrecognised financial instruments, their significance and performance, accounting policies, terms and conditions, net fair values and risk information- the Company's policies for controlling risks and exposures.

The management has overall responsibility for the establishment and oversight of the company's risk management framework. The company's risk management policies are established to identify and analyse the risks faced by the company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies, procedures and systems are reviewed regularly to reflect changes in market conditions and the group's activities. This note presents information about the group's exposure to each of the following risks, the group's objectives, policies and processes for measuring and managing risk, and the group's management of capital. The company has exposure to the following risks from its use of financial instruments.

- a) Credit risk
- b) Liquidity risk
- c) Market risk

33.1 Credit risk

Credit risk is the risk of a financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the company's receivables from Banks and customers etc.

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis.

In monitoring credit risk, debtors are grouped according to their risk profile, i.e. their legal status, financial condition, ageing profile etc. Accounts receivable are related to Transmission/wheeling charge of electricity and optical fiber charge.

The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position.

a) Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

Accounts and other receivables

Receivable from transmission and optical fiber charge Repair and maintenance charge receivable from DESA & Interest receivable

Advance, deposit and prepayments

FDR

Net exposure

The following significant exchange rates are applied during the year:

Exchange rate of USD	77.78	81.83
Exchange rate of SEK	11.62	11.83
Exchange rate of EURO	101.21	103.47
Exchange rate of JPY	0.78	1.02

b) Interest rate risk

Interest rate risk is the risk that arises due to changes in interest rates on borrowings. Short term bank borrowings are, however, not significantly affected by fluctuations in interest rates. The company has not entered into any type of derivative instrument in order to hedge interest rate risk as the reporting date.

i) Profile

As at 30 June, the interest rate risk profile of the company's interest bearing financial instrument was:

Fixed rate instrument

Financial Asset Finnancial Liability 30.06.2013 Taka 5,860,000,000 65,212,625,990

Variable rate instrument

Financial Asset Financial Liability

Nil Nil

(II) Cash flow sensitivity analysis for variable rate instruments:

There being no variable rate instruments, sensitivity analysis has not presented.
